

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

Please enter the following Abstract of the Disclosure in the record:

A device for smoothing and/or drying items of clothing, comprising an external, inflatable body provided with an external trunk and an external sleeve which is arranged on the external trunk, and an internal inflatable body which is located on the external inflatable body and which is provided with an internal trunk and an internal sleeve which is arranged on the internal trunk. In order to obtain an improved position between the internal sleeve and the external sleeve, the distal end of the inner sleeve is connected to the distal end of the external sleeve by means of a connecting device.
